Subject: Relay App Coming Soon to OPD

OSHKOSH, WI (September 09, 2019): The Oshkosh Police Department is partnering with the Relay app on a 6 month trial basis with the anticipated LIVE date on October 1st. October is the National Crime Prevention month, thus a great time to incorporate this app into our department!

The Oshkosh Police Department is the first police department in Wisconsin to utilize this app. This new crime reporting mobile app, Relay, allows Oshkosh residents to report non-emergencies directly to patrol officers in real-time. Once citizens report an incident utilizing this app, the information will appear on the patrol officer's computer screen. Information can be reported as an image or just text information through the app.

The Relay app can be downloaded on the Apple App Store and Android Google Play Store for free by visiting relayapp.com.

For more information please visit relayapp.com. It is important to remember that Relay is not designed to replace 911. **All emergency situations must be reported via phone to 911.**
